

## Mathematical proof that women are evil

1. Everybody agrees that women take time and money, therefore  
women = time x money

2. It is also generally agreed that time is money, therefore  
time = money

3. It follows that  
women = money x money = money<sup>2</sup>

4. It is well known that money is the root of all evil, therefore

$$\text{money} = \sqrt{\text{evil}}$$

and

$$\text{women} = \sqrt{\text{evil}} \times \sqrt{\text{evil}}$$

5. From the above, we conclude:

$$\text{women} = \text{evil}$$
